AI Healthcare System

System

Provided Features

- ❖ Smart patient Profiling
- ❖ Attractive Dashboard
- ❖ Convenient Appointment System
- ❖ Virtual Meeting With Expert Doctors
- ❖ AI enabled Report Explanation and QA System
- ❖ Smart YouTube Video Recommender
- ❖ AI powered Chatbot for Mental & physical Health with Two mode 1.Genrel 2.Ayurveda
- ❖ Track Global Health Insights

1. Smart Profiling

Records All Necessary Health Related Information

- Age
- DOB
- Regular Medicine
- Allergies
- Height
- Weight
- BMI

2. Attractive Dashboard

Contains

- Health Tips
- Upcoming Appointment
- Medication Reminder
- Health Overview
- Personalized Health Insight
- Recent Activities

3. Convenient Appointment System

Contains

AI Recommendation: Our AI analyzes the symptoms and suggests the most appropriate type of specialized doctor.

Doctor Selection: Patients view a map with nearby doctors, filtered by reviews and ratings, to choose the best option for their needs.

Appointment Details: Once selected, the doctor receives all necessary patient details and medical history.

Post-Appointment: Prescriptions and recommendations are displayed on the homepage.

4. Virtual Meeting with Experts

Contains

Remote Consultations: Ideal for patients who need advice from doctors who are not locally available.

Meeting Scheduling: Patients choose from available time slots, and a unique meeting link is generated upon doctor's approval.

Follow-Up: After the virtual meeting, patients receive prescribed medications and advice directly on their homepage.

Post-Appointment: Prescriptions and recommendations are displayed on the homepage.

5. Track Global Insights

Contains

Global Insights:

- **Latest Updates:** Users receive up-to-date news and updates on healthcare topics.
- **Information Hub:** Keeps patients informed about the latest trends and research in the healthcare field.

6. AI enabled Report Explanation and QA System

Contains

Report Explanation:

- **Upload & Analyze:** Users can upload their medical reports in PDF format.
- **Detailed Summary:** The AI provides a comprehensive summary of the report.
- **Interactive Q&A:** Users can ask specific questions about the report, and the AI will provide contextually relevant answers.

7. Smart YouTube Video Recommender

Contains

Video Search:

- Users can search for medical topics to find relevant videos.
- Content Approval: We ensure the accuracy of video content by approving it, preventing the dissemination of misleading information.

Users receive trustworthy and informative videos based on their search queries.

8. AI powered Chatbot for Health with Two mode

1.Genrel 2.Ayurveda

Contains

Chat-Bot:

- 24/7 Assistance:** Patients can ask medical-related questions at any time.
- AI Responses:** The chatbot provides accurate and timely responses based on AI-driven analysis.

THANK
YOU

The image features the words "THANK YOU" in large, white, 3D block letters. Each letter is suspended by a thin white string that passes through a small circular hole at the top of the letter. The letters are arranged in two rows: "THANK" on top and "YOU" below it. The background is a solid, vibrant orange. The lighting creates soft shadows behind the letters, giving them a three-dimensional appearance. The overall composition is clean and modern.
